## **Bullrock Solar Completes The Construction of Rooftop Solar Array's in Williston, VT and Stowe, VT**

Shelburne, VT-Bullrock Solar has recently completed the construction of two rooftop solar array's. There's the 1,020 panel 400kw rooftop array on the roof of Mammut's Vermont Headquarters in Williston, VT. The project is energized by the Vermont Electric Coop. In addition, construction was completed on a 80kw rooftop solar array on the roof of the Mountain Haus Apartments on Mountain Road in Stowe, VT. The 250-panel 70kw solar array will provide power for the 36-unit Mountain Haus Apartments, as well as for the Mountain Haus Hotel, a two-story 120-bed hotel adjacent to the apartments, and currently being constructed by the Bullrock Corporation. Gregg Beldock, Bullrock Corporation CEO says, "We're really excited to have just completed these two projects, both of which utilize unused space and bring energy to users who otherwise wouldn't be enjoying the benefits of solar power". Bullrock Solar, a subsidiary of the Bullrock Corporation is based in Shelburne, VT.and is one of the leading solar companies in the region. The company offers a unique list of vertically integrated solar services, as well as award-winning construction expertise. Bullrock solar has created and developed a vast portfolio of solar projects, which include: rooftop arrays, car ports, and ground mount solar fields, while specializing in everything from planning, installation, finance, maintenance, and monitoring to facility management.
