## **Bullrock Solar is Set to Begin Construction on New Solar Array's in Sandy Creek, NY and Minisink, NY**

Shelburne, VT-Gregg Beldock, CEO of the Bullrock Corporation and Bullrock Solar announced that construction is set to begin on ground mount solar arrays in Sandy Creek, NY and Minisink, NY. The Sandy Creek, NY solar field will be 3MW, cover over 13 acres of under-utilized farmland, and consist of 8,744 solar panels. The site is located on 5923 Main Street in Sandy Creek, NY. It will provide energy for local community solar residential customers and generate enough power to serve approximately 600 homes. The Minisink, NY site will be 2.9MW, cover over 12 acres of under-utilized farmland and consist of 8,444 solar panels. The site is located on 100 Lower Road in Minisink, NY. It will provide energy for local community solar residential customers and generate enough power to serve approximately 600 homes. Gregg Beldock of Bullrock Corporation and Bullrock Solar said, "We are extremely excited about building these solar fields in New York." He goes on to say, "These solar fields will help make all the benefits of solar energy available to local community residents, who might otherwise not have had that opportunity."

Construction of these solar fields by Bullrock Solar are in addition to a 5.9MW array that was recently completed in Catlin, NY, and a 2.9 MW array that was completed in Brunswick, NY. Bullrock Solar, a subsidiary of the Bullrock Corporation, is based in Shelburne, VT and is one of the leading solar companies in the region. Bullrock Solar offers a unique list of vertically integrated solar services, as well as award-winning construction expertise. Bullrock Solar has created and developed a vast portfolio of solar projects, which include rooftop arrays, car ports and ground mount solar fields, while specializing in everything from planning, installation. Finance, maintenance, and monitoring to facility management.
