## **Bullrock Corporation Has Started Construction on Silver Pines, a Medically Supervised Detoxification Clinic in Stowe, Vermont**

Shelburne, VT-Bullrock Corporation announced that it has begun construction on Silver Pines, a medically supervised detoxification clinic located in Stowe, Vermont at 3430 Mountain Road. William Cats-Baril of Silver Pines indicated that the clinic received a Certificate of Need from the Green Mountain Care board to operate a 32-bed facility on the site.

Bullrock Corporation has previous experience as developers, owners, and managers of senior living communities in the healthcare sector. Bullrock is continuing an on-going commitment to healthcare with the construction of this clinic. Silver Pines is Bullrock Corporation's third project on Mountain Road in four years. The site is contiguous to existing projects, The Mountain Haus Apartments and The Mountain Haus Lodge. The lead Bullrock developer on the three projects, Doug Moses says, "We have made a commitment in Stowe and we will continue working with the community to provide solutions to housing, transportation and healthcare". Moses goes on to say, "Stowe is a vibrant community and we appreciate the on-going cooperation and support the town has afforded us on all our projects".

Bullrock Corporation, its owners and affiliates have been in the construction, construction management, real estate development and more recently the solar energy business since the early 1980's. Based in Shelburne, VT, the Bullrock

**BULLROCK**  
CORPORATION  
*BUILDING YOUR FUTURE*

Corporation strives to develop businesses, real estate, and infrastructure that supports and benefits future generations of Vermonters.

Freeman French and Freeman Architects located in Burlington, Vermont will be designing Silver Pines. Wagner Hodgson Landscape Architecture also located in Burlington will be designing and installing the landscaping for the four-acre campus.
